

# PORT MACQUARIE GOLF CLUB

## Policy Player Management

**Purpose:**

**To allow for the management of the course in an effective and safe work environment**

The Port Macquarie Golf Club prides itself in the management and presentation of the eighteen-hole golf course. As a part of any business operating in the state of New South Wales the Club is required to always comply with SafeWork NSW (Safework.nsw.gov.au) requirements.

One of the main features of our business is achieving the provision of the golf course in the best possible condition for the enjoyment of members, visitors and guests. To achieve a balance between people being able to play golf on the course and enabling our green staff to manage and maintain the course the following available access conditions have been adopted by the PMGC Board and these will conditions will apply Monday to Sunday each week that the course is open for golfers to access the course.

The following access will be provided to the course when the course is accessible for play.

**Port Macquarie Golf Course Weekly Access Conditions:**

Weekday	Conditions of access
